## **Statistics for Long-Memory Processes (Chapman & Hall/CRC Monographs on Statistics & Applied Probability) Jan Beran**

Statistical Methods for Long Term Memory Processes covers the diverse statistical methods and applications for data with long-range dependence. Presenting material that previously appeared only in journals, the author provides a concise and effective overview of probabilistic foundations, statistical methods, and applications. The material emphasizes basic principles and practical applications and provides an integrated perspective of both theory and practice. This book explores data sets from a wide range of disciplines, such as hydrology, climatology, telecommunications engineering, and high-precision physical measurement. The data sets are conveniently compiled in the index, and this allows readers to view statistical approaches in a practical context.

Statistical Methods for Long Term Memory Processes also supplies S-PLUS programs for the major methods discussed. This feature allows the practitioner to apply long memory processes in daily data analysis. For newcomers to the area, the first three chapters provide the basic knowledge necessary for understanding the remainder of the material. To promote selective reading, the author presents the chapters independently. Combining essential methodologies with real-life applications, this outstanding volume is an indispensable reference for statisticians and scientists who analyze data with long-range dependence.

### **From reader reviews:**

#### **Rosa Nguyen:**

In this 21st one hundred year, people become competitive in most way. By being competitive today, people have do something to make them survives, being in the middle of the crowded place and notice simply by surrounding. One thing that often many people have underestimated the item for a while is reading. Yeah, by reading a book your ability to survive improve then having chance to endure than other is high. In your case who want to start reading a new book, we give you this particular Statistics for Long-Memory Processes (Chapman & Hall/CRC Monographs on Statistics & Applied Probability) book as nice and daily reading e-book. Why, because this book is greater than just a book.

#### **Melissa Chandler:**

Information is provisions for folks to get better life, information nowadays can get by anyone from everywhere. The information can be a knowledge or any news even a concern. What people must be consider while those information which is within the former life are challenging to be find than now is taking seriously which one is acceptable to believe or which one the actual resource are convinced. If you receive the unstable resource then you obtain it as your main information you will see huge disadvantage for you. All those possibilities will not happen throughout you if you take Statistics for Long-Memory Processes (Chapman & Hall/CRC Monographs on Statistics & Applied Probability) as the daily resource information.

#### **Melissa Conner:**

In this era globalization it is important to someone to get information. The information will make someone to understand the condition of the world. The condition of the world makes the information simpler to share. You can find a lot of personal references to get information example: internet, newspaper, book, and soon. You can see that now, a lot of publisher this print many kinds of book. The particular book that recommended for you is Statistics for Long-Memory Processes (Chapman & Hall/CRC Monographs on Statistics & Applied Probability) this guide consist a lot of the information on the condition of this world now. That book was represented how does the world has grown up. The words styles that writer require to explain it is easy to understand. Typically the writer made some study when he makes this book. That is why this book acceptable all of you.

#### **Terry Dansby:**

Do you like reading a reserve? Confuse to looking for your selected book? Or your book had been rare? Why so many query for the book? But virtually any people feel that they enjoy regarding reading. Some people likes studying, not only science book but novel and Statistics for Long-Memory Processes (Chapman & Hall/CRC Monographs on Statistics & Applied Probability) or maybe others sources were given knowledge for you. After you know how the truly great a book, you feel need to read more and more. Science guide was created for teacher or even students especially. Those books are helping them to put their knowledge. In

additional case, beside science reserve, any other book likes Statistics for Long-Memory Processes (Chapman & Hall/CRC Monographs on Statistics & Applied Probability) to make your spare time a lot more colorful. Many types of book like here.
