Tantric sex is a practice that has been around for a very long time, but it's finally making its way into Western culture. It was first introduced by sex therapists who wanted to help their patients grow closer together after a long period of not being intimate, and has long since been incorporated into many bedrooms across the nation. This new method of having sex focuses on both partners' emotional, physical, and mental arousal during sex. In Western culture, physical arousal is about the only thing focused upon, which can lead to a very dry, boring experience for the female partner, and sometimes the male partner, too.
