The world ended twenty years ago. A new world arises from the ashes. Diamond City, the last refuge for humanity after the zombie apocalypse, is on the brink of collapse. Their water source is drying, a rebel faction launches attacks on the Council, and worst of all, it appears the Horde descending on the city is actually evolving. Mayor Robbie Wilson, the man lifted up by the people and elected into the Council by overwhelming popular vote, struggles with the eroding ethics of leadership and the grey moral territory he must navigate for his people's safety. Are secrecy and deception necessary for their protection? Scout Eric Bakman traverses the scorched, dead, and lifeless terrain outside the city walls, left blackened by the Zed Bomb. As he feels the invigoration of danger in his journey, he must also face the difficult reality that perhaps the scum of the Earth may in fact become its future. The mysterious leader of Diamond City's rebel group, a deformed man known only as Green Skull, plots his strategy to position himself as the forger of the world's next dominant race, utilizing advanced knowledge of the virus that devastated humanity to rebirth it. On a planet covered in ash and ruin, agents on all sides, human, zombie, and otherwise, engage one another in a power struggle for the fate of all. Zevolution: Zombie Awakening begins a new zombie series unlike any you've read before.
