## **LTE Signaling** Ralf Kreher, Karsten Gaenger

This extensively updated second edition of *LTE Signaling, Troubleshooting and Performance Measurement* describes the LTE signaling protocols and procedures for the third generation of mobile communications and beyond. It is one of the few books available that explain the LTE signaling messages, procedures and measurements down to the bit & byte level, and all trace examples are taken for a real lab and field trial traces. This book covers the crucial key performance indicators (KPI) to be measured during field trials and deployment phase of new LTE networks. It describes how statistic values can be aggregated and evaluated, and how the network can be optimized during the first stages of deployment, using dedicated examples to enhance understanding.

Written by experts in the field of mobile communications, this book systematically describes the most recent LTE signaling procedures, explaining how to identify and troubleshoot abnormal network behavior and common failure causes, as well as describing the normal signaling procedures. This is a unique feature of the book, allowing readers to understand the root cause analysis of problems related to signaling procedures.

This book will be especially useful for network operators and equipment manufacturers; engineers; technicians; network planners; developers; researchers; designers; testing personnel and project managers; consulting and training companies; standardization bodies.

### **From reader reviews:**

#### **Peter Schmidt:**

Why don't make it to be your habit? Right now, try to prepare your time to do the important action, like looking for your favorite publication and reading a e-book. Beside you can solve your trouble; you can add your knowledge by the publication entitled LTE Signaling. Try to face the book LTE Signaling as your buddy. It means that it can to get your friend when you feel alone and beside regarding course make you smarter than before. Yeah, it is very fortuned to suit your needs. The book makes you far more confidence because you can know every thing by the book. So , let us make new experience in addition to knowledge with this book.

#### **Neil Williams:**

What do you about book? It is not important along? Or just adding material when you need something to explain what the one you have problem? How about your spare time? Or are you busy man? If you don't have spare time to accomplish others business, it is make one feel bored faster. And you have free time? What did you do? Everyone has many questions above. They should answer that question mainly because just their can do which. It said that about guide. Book is familiar on every person. Yes, it is appropriate. Because start from on pre-school until university need that LTE Signaling to read.

#### **Eric Frances:**

Reading a reserve can be one of a lot of exercise that everyone in the world really likes. Do you like reading book so. There are a lot of reasons why people like it. First reading a reserve will give you a lot of new details. When you read a e-book you will get new information due to the fact book is one of various ways to share the information or even their idea. Second, looking at a book will make a person more imaginative. When you reading a book especially hype book the author will bring one to imagine the story how the personas do it anything. Third, you can share your knowledge to others. When you read this LTE Signaling, you may tells your family, friends as well as soon about yours guide. Your knowledge can inspire the mediocre, make them reading a reserve.

#### **Charlotte Gambrel:**

Your reading 6th sense will not betray an individual, why because this LTE Signaling guide written by well-known writer who really knows well how to make book that could be understand by anyone who have read the book. Written with good manner for you, leaking every ideas and composing skill only for eliminate your personal hunger then you still doubt LTE Signaling as good book not merely by the cover but also by content. This is one guide that can break don't judge book by its deal with, so do you still needing one more sixth sense to pick this particular!? Oh come on your looking at sixth sense already said so why you have to listening to a different sixth sense.
