SAVE ME Kids is a collection of seven children's stories on the subject of protecting nature, forests, animals, and promoting peace and humanity throughout the world. Through these stories, kids are inspired and encouraged to protect the environment, to respect living beings' rights, and to assist others who are in need. The emphasis of this book is on children, hoping that these stories play a positive role in educating the younger generation so that they can change the currently destructive direction of the world, and save our planet in the process. Because of the author's background as a filmmaker and as an artist, the stories are all visually appealing to a child's imagination. Reading these stories is like watching animations or movies, satisfying a child's imagination while provoking the child's sense of curiosity and quest for fairness in the world at the same time.
