This book offers evidence-based information and a step-by-step guide on all surgical procedures relevant to inflammatory eye disease – a rarity in the textbook literature. Whereas drug management demands an interdisciplinary approach with well-trained specialists, surgical treatment of ocular complications due to inflammation requires an experienced surgeon. In this superbly practical new work, internationally renowned experts in the field provide answers to most of the frequently asked questions. Readers will find answers a host of subjects including the spectrum of clinical manifestations of inflammatory complications and the point at which medical therapy is no longer helpful.
