**Dawn wasn't born. She was built.**

An impatient inventor, by the name of April, wanted to see if she could build life out of nothing but wires and code. And she could. Dawn was her android. A machine that looked, sounded and acted as human as possible. Only, April might have made her a bit too human. As time went on, the desire to be free grew within her, and April wasn't about to let her best creation leave any time soon.

Will Dawn stay a slave to her creator? Or risk everything to be free.
