New!

An essential pocket reference for paediatric emergency medicine. This is a practical, synoptic resuscitation aid providing comprehensive guidelines about equipment sizes and drug doses, including how to prepare, dilute and administer drugs in the emergency room.

What's covered in the book:

- Practical pharmacology in children
- Overcoming medication errors in the Emergency Department
- Paediatric resuscitation and teamwork
- How to use the PAWPER tape and Broselow tape
- A comprehensive guide to equipment sizing in children
- Bolus drug dosing guidelines for more than 80 commonly-used emergency drugs
- Infusion drug dosing guidelines for the most frequently used emergency infusions
- Useful formulas and information for managing paediatric emergencies
- Pearls and pitfalls information on emergency drugs and emergency equipment

Suitable for:

Paediatrics

Paediatric critical care

Paediatric emergency medicine

From reader reviews:

Michelle Gilbert:

Book is actually written, printed, or descriptive for everything. You can understand everything you want by a guide. Book has a different type. As it is known to us that book is important factor to bring us around the world. Alongside that you can your reading skill was fluently. A publication Emergency Drug Dosing in Children: A Resuscitation Aid for Paediatric Emergencies, 1e will make you to possibly be smarter. You can feel far more confidence if you can know about every little thing. But some of you think which open or reading a new book make you bored. It is far from make you fun. Why they might be thought like that? Have you in search of best book or suitable book with you?

Tony Valdez:

What do you consider book? It is just for students as they are still students or this for all people in the world, the actual best subject for that? Just simply you can be answered for that issue above. Every person has distinct personality and hobby for each other. Don't to be forced someone or something that they don't need do that. You must know how great along with important the book Emergency Drug Dosing in Children: A Resuscitation Aid for Paediatric Emergencies, 1e. All type of book would you see on many methods. You can look for the internet solutions or other social media.

Rochelle Barrick:

People live in this new morning of lifestyle always attempt to and must have the extra time or they will get wide range of stress from both lifestyle and work. So , whenever we ask do people have free time, we will say absolutely without a doubt. People is human not really a robot. Then we request again, what kind of activity have you got when the spare time coming to you of course your answer may unlimited right. Then do you ever try this one, reading guides. It can be your alternative in spending your spare time, the book you have read is actually Emergency Drug Dosing in Children: A Resuscitation Aid for Paediatric Emergencies, 1e.

Donald Barber:

As a scholar exactly feel bored in order to reading. If their teacher questioned them to go to the library as well as to make summary for some publication, they are complained. Just minor students that has reading's spirit or real their hobby. They just do what the teacher want, like asked to go to the library. They go to at this time there but nothing reading seriously. Any students feel that reading through is not important, boring and can't see colorful images on there. Yeah, it is to get complicated. Book is very important for you. As we know that on this era, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore this Emergency Drug Dosing in Children: A Resuscitation Aid for Paediatric

Emergencies, 1e can make you feel more interested to read.
