Networking Lab Practice Kit: For Microsoft and Cisco Systems John Chirillo
Certifications for technical professionals, especially in Microsoft and Cisco technologies, has become a must-have for company hiring practices. However, there is growing discontent that newly-certified employees are merely book smart and lack the actual hands-on practice that will allow the technical person to actually install or troubleshoot network components. This book provides all the processes, explanations, and exercises needed for every network, whether it be large or small.
