Black & White Photography (Black and White Photography) Glenn M. Rand, David R. Litschel

Black and White Photography, 2E provides readers with the how-to and reference information they need to learn to compose, develop, and exhibit their own first-rate photographs. An ideal resource for beginners, this edition features over 300 pages of detailed information supported by easy-to-understand diagrams and examples of some of the world's best black-and-white photographs. The logical, three-part organization-based on the authors' 20+ years of teaching experience-progresses from the most basic aspects of black-and-white photography through coverage of Zone System and other advanced techniques. All-new chapters on manipulative printing techniques and digital photographic technology ensure that readers are exposed to state-of-the-art techniques while en route to becoming skilled photographers.
