## Hermeneutics: A Very Short Introduction (Very Short Introductions) Jens Zimmermann

Hermeneutics is the branch of knowledge that deals with interpretation, a behaviour that is intrinsic to our daily lives. As humans, we decipher the meaning of newspaper articles, books, legal matters, religious texts, political speeches, emails, and even dinner conversations every day. But how is knowledge mediated through these forms? What constitutes the process of interpretation? And how do we draw meaning from the world around us so that we might understand our position in it?

In this *Very Short Introduction* Jens Zimmerman traces the history of hermeneutic theory, setting out its key elements, and demonstrating how they can be applied to a broad range of disciplines: theology; literature; law; and natural and social sciences. Demonstrating the longstanding and wide-ranging necessity of interpretation, Zimmerman reveals its significance in our current social and political landscape.

**ABOUT THE SERIES:** The *Very Short Introductions* series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.
