**Three of the Most Popular Jazz Guitar Chord Books on Amazon Together in One Volume** This compilation of essential jazz guitar books includes:

- **Guitar Chords in Context**
- **Jazz Guitar Chord Mastery**
- **Voice Leading Jazz Guitar**

**Over 250 Pages and 350 Notated Audio Examples Help You Master the Most Essential Concepts in Jazz Guitar** With hours of audio to download for free from [www.fundamental-changes.com](http://www.fundamental-changes.com), this compilation shows you how to construct, play and musically apply each jazz guitar chord structure. Bringing together three best-selling books on guitar chords, this compilation is a complete guide to jazz chord structures and voicings. **Guitar Chords in Context** is designed to give you an immediate, practical understanding of how all of the basic chord forms are constructed, played and used. **Jazz Guitar Chord Mastery** focuses on specific chord structures, their inversions, voicings and voice leading. It covers 'drop 2', 'drop 3' and 'drop 2 and 4' chords on all string groups. **Voice Leading Jazz Guitar** goes beyond chord shapes and inversions. It teaches you to see the neck of the guitar as groups of intervals that add rich harmonies and tensions to otherwise standard progressions **Complete Method** Building from absolute first principles in *Guitar Chords in Context*, each book takes you on a musical journey that teaches you to use creative jazz chords in a musical context. With hundreds of practical applications of drop 2, drop 3 and drop 2 + 4 chords, voice leading, alterations, extensions, functional and secondary dominants, plus chord substitutions and much more, this trilogy is an indispensable guide to modern jazz guitar chords. **Hundreds of Reviews for each Book include:** "Joseph Alexander...is an EXCELLENT teacher!" "This guy's series of books/ audio examples has got to be one of the best ways to learn jazz and blues guitar. I have bought many other books and DVDs and they all have something worthwhile to offer but most do not come close to anything as complete and easy to understand as Alexander's. This particular one about Jazz Chords starts from the most basic shapes (and why they have certain names) and then moves logically through a series of exercises that really help you internalize everything you are learning; that is the key: making everything you play come from a place that is inside and automatic and frees you to be creative. I will definitely be purchasing more of this series." "A nice organized way to begin jazz guitar study. The approach is basic and practical, not too much theory and that's good because you can only end up playing jazz by actually doing it and not just reading about it. This is a good course for those wanting to get into jazz without the confusing pedagogy of other methods. I have many other jazz instruction books that throw the knowledge at you, give you a few examples and leave you to figure it out from there. This course gives you practice with things you can improvise with." **Over 70,000 Books Sold** Fundamental-Changes.com write some of the most popular guitar guides on Amazon. Each book goes into great detail about focused areas of guitar playing, so we can guarantee you'll be immersed in the style that you love. Written by musicians in clear, unpretentious language they aim to make learning guitar fun and accessible for everyone. **Buy Three Books in One Volume Now and Quickly Revolutionize Your Playing Free Shipping to Your Door!**
