Since the IEA last reviewed Germanys energy policies in 2007, the country has taken two fundamental policy decisions that will guide its energy policy in coming decades. In September 2010, the federal government adopted the Energy Concept, a comprehensive new strategy for a long-term integrated energy pathway to 2050. Following the Fukushima Daiichi nuclear accident in March 2011, Germany decided to accelerate the phase-out of nuclear power by 2022 starting with the immediate closure of the eight oldest plants. This decision resulted in the adoption of a new suite of policy measures, determined renewable energy as the cornerstone of future energy supply, a set of policy instruments commonly known as the Energiewende.

In order to achieve the ambitious energy transformation set out in the Energiewende, by 2030 half of all electricity supply will come from renewable energy sources; Germany must continue to develop cost-effective market-based approaches which will support the forecast growth of variable renewable generation. Furthermore, the costs and benefits need to be allocated in a fair and transparent way among all market participants, especially households.

Renewable energy capacity must expand alongside the timely development of the transmission and distribution networks. In addition, a stable regulatory system is necessary to ensure long-term finance to network operators. Furthermore, close monitoring of Germanys ability to meet electricity demand at peak times should continue in the medium term.

Energy policy decisions in Germany inevitably have an impact beyond the countrys borders and must be taken within the context of a broader European energy policy framework and in close consultation with its neighbours.

This review analyses the energy-policy challenges facing Germany and provides recommendations for further policy improvements. It is intended to help guide the country towards a more secure and sustainable energy future.

From reader reviews:

Fern Rodriquez:

Do you certainly one of people who can't read enjoyable if the sentence chained inside the straightway, hold on guys this specific aren't like that. This Energy Policies of IEA Countries Energy Policies of IEA Countries: Germany 2013 book is readable by you who hate the straight word style. You will find the information here are arrange for enjoyable looking at experience without leaving even decrease the knowledge that want to supply to you. The writer associated with Energy Policies of IEA Countries Energy Policies of IEA Countries: Germany 2013 content conveys prospect easily to understand by most people. The printed and e-book are not different in the written content but it just different as it. So , do you still thinking Energy Policies of IEA Countries Energy Policies of IEA Countries: Germany 2013 is not loveable to be your top list reading book?

Vicki Harris:

Reading a publication can be one of a lot of action that everyone in the world enjoys. Do you like reading book thus. There are a lot of reasons why people like it. First reading a guide will give you a lot of new information. When you read a publication you will get new information since book is one of many ways to share the information or perhaps their idea. Second, reading a book will make an individual more imaginative. When you looking at a book especially fictional works book the author will bring someone to imagine the story how the figures do it anything. Third, you are able to share your knowledge to others. When you read this Energy Policies of IEA Countries Energy Policies of IEA Countries: Germany 2013, you could tells your family, friends along with soon about yours reserve. Your knowledge can inspire the others, make them reading a reserve.

Scott Duran:

It is possible to spend your free time to learn this book this publication. This Energy Policies of IEA Countries Energy Policies of IEA Countries: Germany 2013 is simple to deliver you can read it in the recreation area, in the beach, train and soon. If you did not possess much space to bring the printed book, you can buy the e-book. It is make you better to read it. You can save often the book in your smart phone. And so there are a lot of benefits that you will get when you buy this book.

Debra Becnel:

Beside this specific Energy Policies of IEA Countries Energy Policies of IEA Countries: Germany 2013 in your phone, it could give you a way to get more close to the new knowledge or details. The information and the knowledge you are going to got here is fresh from oven so don't be worry if you feel like an aged people live in narrow community. It is good thing to have Energy Policies of IEA Countries Energy Policies of IEA Countries: Germany 2013 because this book offers for your requirements readable information. Do you sometimes have book but you don't get what it's exactly about. Oh come on, that will not happen if you have

this with your hand. The Enjoyable agreement here cannot be questionable, such as treasuring beautiful island. So do you still want to miss that? Find this book and read it from today!
