Heterogeneous Computing with OpenCL Benedict Gaster, Lee Howes, David R. Kaeli, Perhaad Mistry, Dana Schaa

Heterogeneous Computing with OpenCL teaches OpenCL and parallel programming for complex systems that may include a variety of device architectures: multi-core CPUs, GPUs, and fully-integrated Accelerated Processing Units (APUs) such as AMD Fusion technology. Designed to work on multiple platforms and with wide industry support, OpenCL will help you more effectively program for a heterogeneous future.

Written by leaders in the parallel computing and OpenCL communities, this book will give you hands-on OpenCL experience to address a range of fundamental parallel algorithms. The authors explore memory spaces, optimization techniques, graphics interoperability, extensions, and debugging and profiling. Intended to support a parallel programming course, *Heterogeneous Computing with OpenCL* includes detailed examples throughout, plus additional online exercises and other supporting materials.

- Explains principles and strategies to learn parallel programming with OpenCL, from understanding the four abstraction models to thoroughly testing and debugging complete applications.
- Covers image processing, web plugins, particle simulations, video editing, performance optimization, and more.
- Shows how OpenCL maps to an example target architecture and explains some of the tradeoffs associated with mapping to various architectures
- Addresses a range of fundamental programming techniques, with multiple examples and case studies that demonstrate OpenCL extensions for a variety of hardware platforms

From reader reviews:

Dolores Watkins:

In other case, little persons like to read book Heterogeneous Computing with OpenCL. You can choose the best book if you want reading a book. As long as we know about how is important a book Heterogeneous Computing with OpenCL. You can add know-how and of course you can around the world by the book. Absolutely right, since from book you can realize everything! From your country until finally foreign or abroad you will end up known. About simple factor until wonderful thing it is possible to know that. In this era, you can open a book or even searching by internet product. It is called e-book. You can utilize it when you feel bored to go to the library. Let's examine.

Lori Morgan:

Hey guys, do you really wants to finds a new book to read? May be the book with the name Heterogeneous Computing with OpenCL suitable to you? The actual book was written by well-known writer in this era. The actual book untitled Heterogeneous Computing with OpenCL is the one of several books that will everyone read now. This book was inspired a lot of people in the world. When you read this e-book you will enter the new dimension that you ever know prior to. The author explained their concept in the simple way, therefore all of people can easily to comprehend the core of this e-book. This book will give you a lots of information about this world now. To help you see the represented of the world with this book.

Jennifer Galaviz:

Spent a free the perfect time to be fun activity to complete! A lot of people spent their free time with their family, or their very own friends. Usually they carrying out activity like watching television, likely to beach, or picnic inside the park. They actually doing same every week. Do you feel it? Would you like to something different to fill your current free time/ holiday? Can be reading a book can be option to fill your totally free time/ holiday. The first thing you will ask may be what kinds of e-book that you should read. If you want to try out look for book, may be the publication untitled Heterogeneous Computing with OpenCL can be excellent book to read. May be it is usually best activity to you.

Rebecca Kendrick:

This Heterogeneous Computing with OpenCL is brand new way for you who has fascination to look for some information because it relief your hunger of information. Getting deeper you into it getting knowledge more you know or you who still having little digest in reading this Heterogeneous Computing with OpenCL can be the light food in your case because the information inside that book is easy to get by means of anyone. These books develop itself in the form that is certainly reachable by anyone, yeah I mean in the e-book type. People who think that in publication form make them feel tired even dizzy this e-book is the answer. So there isn't any in reading a publication especially this one. You can find actually looking for. It should be here for a person. So , don't miss the item! Just read this e-book type for your better life as well as knowledge.
