## **Laboratory Manual for Anatomy & Physiology featuring Martini Art, Main Version Plus MasteringA&P with eText -- Access Card Package (5th Edition)** Michael G. Wood

Known for its carefully guided lab activities, accurate art and photo program, and unique practice and review tools that encourage students to draw, label, apply clinical content, and think critically, **Wood, Laboratory Manual for Anatomy & Physiology featuring Martini Art with MasteringA&P**®, **Main Version, Fifth Edition** offers a comprehensive approach to the two-semester A&P laboratory course. The stunning, full-color illustrations are adapted from **Martini/Nath/Bartholomew, Fundamentals of Anatomy & Physiology, Ninth Edition**, making this lab manual a perfect companion to that textbook for instructors who want lab manual art to match textbook art. The use of the Martini art also makes this lab manual a strong companion to **Martini/Ober/Nath, Visual Anatomy & Physiology**. This manual can also be used with any other two-semester A&P textbook for those instructors who want students in the lab to see different art from what is in their textbook. This lab manual is available in three versions: Main, Cat, and Pig. The Cat and Pig versions are identical to the Main version but also include nine cat or pig dissection exercises at the back of the lab manual.

The **Fifth Edition** features more visually effective art and abundant opportunities for student practice both in the manual and online. For the first time, this manual comes with **MasteringA&P**. The new Practice Anatomy Lab™ (PAL™) 3.0 virtual anatomy program and the new PhysioEx™ 9.1 physiology lab simulation program— both housed within MasteringA&P— give students valuable coaching and practice.
