Nursing Interventions for Infants, Children, and Families

Nursing Interventions for Infants, Children, and Families

Designed for nurses and student nurses who work with this group, this book covers interventions for infants and children as clients, as well as the family as a client. Each chapter examines the theoretical and research literature support for the intervention and links to appropriate nursing diagnoses and outcomes. A case study is presented to illustrate how each intervention is used in nursing practice. Implications for further research are presented with the goal of advancing nursing science by stimulating further study of nursing interventions.
