## Advancing Quantitative Methods in Criminology and Criminal Justice

*Advancing Quantitative Methods in Criminology and Criminal Justice* is designed to promote the understanding of various quantitative research methods and to encourage their use among those seeking answers to questions about crime and justice. To this end a number of top scholars have been assembled to provide their insights on a variety of 'cutting edge' quantitative research techniques. The chapters that appear delve into the state of quantitative methods in the discipline, group-based trajectory modeling, spatial dependence models, structural equation models, meta-analysis, social network designs, panel data modeling, and censored regression techniques. This book will be highly beneficial for readers who seek to stay as current as possible as they pursue answers to questions about crime and justice using quantitative research methods.

This book was originally published as a special issue of the *Journal of Criminal Justice Education*.
