Congratulations! With only a few backs that you have decided to spend, you invested in a knowledge that you probably have never heard before or, even, have never dare to think.

It is true that via facebook you can gain a lot of money and I am here to show you, step by step, how to do that, how I managed to do it and how did many others, as well, who had read that book and had the patience and the persistence to do so.

You can earn a great deal of money, not via the advertisement that your page suggests you in order to increase the number of your “Likes” or viewers, not by trying hard to come up with something special and attractive to write so as to promote the job or product or service that you provide, waiting for someone among your facebook friends to decide to buy it.

And now you are going to ask; How on earth am I going to make money by thousands of friends whom I don't really know in person?

In this book I will explain to you, step by step, all the tricks ,or secrets if you prefer, about how to make the most your facebook account.

Who am I? One of those who made it!

I am a writer for many years now and since I had worked with many publishers I realized that my profits were, in any case, way less than those of my publishers' .

I made all the hard work that could take 8 - 9 months or even a year to be completed and the publisher with only one month of processing and dealing my book, earned the “fat” money.

That's why I started to both write and deal my own books by finding a cheap typist, learning all about the free lancing and making whatever I could in order for my books to be sold. The readers, though, do not trust writers who sell their own books if they are not already familiar with their work.

So, one day I came up with an idea! What if I saw facebook more professionally?

On the chapters of this book, we are going to see all the steps together – one by one – in order for you to earn a great deal of money – if you truly wish for it – through the wonderful facebook application.
