Seeking God at the Idol Meat BBQ Warren Michael Allen

Seeking God at the Idol meat BBQ is a title that may make you scratch your head and wonder what it is all about. It sounds like a cute little fiction tale, but it is not. It is a hard hitting analysis on the nature of God that may change forever how you view religion and the human place in the universe. The title's origin is from a letter the apostle Paul wrote in 1Corthenians. He told his congregation not to eat the idol meat because in might impact the faith of those who believe eating it is wrong. If you believe the truth is wrong then avoid the meat in this book, which exposes many of the fallacies of ancient texts. This book is a journey that takes no prisoners, in the quest to nail down the nature of God. What is worthy of belief and what must be cast aside. The fires of this BBQ have been stoked with the sacred scripture of all religions, including critical coverage of the atheist viewpoint. Throw in insight from science, ancient alien theories and destroy the myths created by man, wringing the juice from what is left and formulate a view of God. "Do I believe?" is the first question, followed quickly with, "What can I believe about God when the self-serving lies are stripped away?" You will be surprised and pleased how rich the content is at the bottom of the barrel. The accuracy of your answer will never be confirmed in a mortal lifetime since God is unknowable and beyond understanding in human terms. I guarantee God is not a 'being' keeping watch on the actions and morality of mankind from a nearby heavenly realm. Concepts like predestination, intelligent design and evolution are questioned and science is forced to survive side by side with this imaginative view of God. Dare to sign onto this adventure and challenge what you believe and why.
